

# GRADUATE NURSING PROGRAMS

## A MESSAGE FROM THE DEAN

It is my pleasure to welcome you with an introduction to the nursing programs at Florida Southern College. The nursing programs at Florida Southern College are committed to educational excellence, providing opportunities that integrate cultural competence and ethics into nursing practice, and fostering personal and professional growth for the baccalaureate, master's, and doctoral level nursing student. Faculty pride themselves on creating a transformative and supportive learning environment, one that emphasizes engaged learning, student-faculty collaboration and academically-based service to the community.

Students are prepared in an atmosphere of compassionate caring to uphold professional standards and ethics, and to reflect Judeo-Christian values and ideals. We consider it essential that every nurse understands the impact of a changing health care delivery system upon patient health and the profession of nursing. Toward this end, nursing students at Florida Southern College are prepared to communicate effectively as part of an interprofessional team and to provide compassionate, evidence-based, patient-centered care.

Students complete coursework that combines theory and clinical practice for a hands-on experience, advancing their skills through distinguished practicum internships. We offer a 4-year direct-entry BSN program that prepares students for licensure and entry into professional nursing practice. We also offer a master's degree program with four tracks that prepare students for advanced nursing practice: Family Nurse Practitioner, Adult-Gerontology Primary Care Nurse Practitioner, Nursing Administrative Leadership, and Nurse Educator. A post-baccalaureate certificate in Nursing Administrative Leadership and post-masters certificates in Family Nurse Practitioner, Adult-Gerontology Primary Care Nurse Practitioner, and Nurse Educator are also offered.

Those nurses interested in the highest level of practice-focused education can pursue a Doctor of Nursing Practice at Florida Southern College. This program of study prepares graduates for a leadership trajectory at various levels in clinical and administrative healthcare environments through advanced competencies in leadership, evidence-based practice, quality improvement, informatics, health care analytics, health policy, and clinical practice. Our faculty has designed a convenient online format specifically tailored to meet the needs of working health care professionals and to provide the flexibility and engaged learning that the community has come to expect from FSC.

I hope you consider applying to one of our extraordinary nursing programs and becoming part of our FSC nursing community. You will have the opportunity to work with our innovative and talented faculty to prepare for many diverse roles in a rapidly changing health care environment.

**Make a difference. Become a Florida Southern nurse.**

Sincerely,

A handwritten signature in white ink that reads "Laly Joseph". The signature is fluid and cursive, with the first name "Laly" and last name "Joseph" clearly legible.

Laly Joseph, DVM, DNP, CNE, RN-C, MSN, ARNP, ANP-BC, FNAP  
Dean and Dr. Keith R. Berend Endowed Chair in Nursing  
The Ann Blanton Edwards School of Nursing and Health Sciences

The post-graduate APRN certificate program at Florida Southern College is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

The Doctor of Nursing Practice program at Florida Southern College is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

*JOSH GENRICH, RN, BSN, MSN*

My MSN experience at Florida Southern College has far exceeded my expectations. My professors were knowledgeable as well as encouraging and supportive. I could not have asked for a better program.

---

## FACULTY

Florida Southern's nursing faculty members are mentors, role models, and expert resources. They're dedicated to helping you master new skills, critically evaluate situations, and integrate your knowledge with practical experience. With their constant support, you'll develop a nursing practice that utilizes innovative approaches and effectively delivers care within diverse settings.

---

## FACILITIES

With a state-of-the-art nursing skills lab and treatment-simulation laboratory, the The Ann Blanton Edwards School of Nursing and Health Sciences gives you access to the latest technology.

“

*MELISSA HODGES, MSN*

After being a nurse for 17 years, I was ready to take the next step in my career to become a family nurse practitioner. My advice? Stay focused. Balance is everything! Schedule time for studying and time for yourself. My classes contributed to my success in the clinical setting and will continue to prepare me as a provider.

”

# MASTER OF SCIENCE IN NURSING (MSN)

---

At Florida Southern, our Master of Science in Nursing program lets you build on the foundations of your BSN and focus on a specific area of advanced nursing. Along with cutting-edge technology and personalized attention from accessible and impressively credentialed full-time faculty, our program features four distinct curriculum tracks, each addressing a vital area in health care.

---

## MSN Tracks:

- **Adult-Gerontology Primary Care Nurse Practitioner**  
Gain the ability to diagnose and treat patients 13 years and older in primary care settings.
- **Family Nurse Practitioner**  
Be prepared to provide and direct care to families including adults and children in primary care settings.
- **Nursing Administrative Leadership**  
This track is designed to provide nurse managers and clinical nurse leaders with the skills and knowledge necessary to guide daily operations in a variety of healthcare settings.
- **Nurse Educator**  
This track prepares you to teach in an academic or healthcare setting by giving you expertise in teaching strategies and learning principles.

## Delivery

Nurse Practitioner students meet once per week on campus for their classroom courses. The Nursing Administrative Leadership and Nurse Educator programs are delivered fully online.

## Program Strengths

Here at FSC, we offer the hands-on, engaged learning experience you would expect in the field of nursing. Small class sizes allow for faculty dedication to students, as well as close camaraderie with your cohort. Additionally, our program provides assistance with clinical placement from our full-time clinical coordinator. We are proud to offer a program that holds CCNE accreditation, the gold standard of nursing accreditation.

# DOCTOR OF NURSING PRACTICE (DNP)

---

The demands of the rapidly changing and complex health care environment require the highest levels of scientific knowledge and practice expertise.

---

## Overview

The DNP program prepares graduates to design and lead system-level improvements to achieve excellent patient care and practice outcomes. This program is a leadership focused post-master's program of study designed to prepare graduates in health care policy and advocacy, finance, information systems, project management and organizational leadership. Emphasis is on the application of evidence for the improvement and enhancement of patient care and health care delivery systems.

## Delivery

To accommodate the busy schedules of working nursing professionals, our program coursework is delivered fully online.

## Program Strengths

Our DNP program faculty have the teaching and practical experience required to prepare students for the highest level of independent nursing practice. The development of personal relationships with faculty and classmates is fostered by small class sizes and personalized instruction. Our highly-credentialed faculty include advanced practice leaders and experts with a wide range of clinical, policy, administrative, and academic expertise. FSC has established excellent partnerships with local health care and community-based organizations to support practice-immersion and experiential learning.

## WHY EARN A DNP?

**Because a DNP puts you in demand. Here's how:**

- Employers are recognizing the value of DNP-prepared nurses and exploring the many ways these nursing professionals can make a difference in the field, emphasizing evidence-based practice, informatics, and quality improvement. Those with Doctor of Nursing Practice degrees stand out in their profession, facilitating health care at both the practice and policy levels.
- For many nurses, a DNP lays the foundation for new opportunities for innovation and collaboration in nursing practice that would allow them to effect change and transform healthcare for the better.

**For the most updated curriculum, tuition cost and admission requirements, please visit [www.flsouthern.edu/dnp](http://www.flsouthern.edu/dnp)**

“

When I decided to seek my DNP, I wanted Florida Southern to be a part of that journey. Florida Southern has provided me the flexibility, challenge, and rigor I sought in my undergraduate and graduate degrees. I am a senior leader in a major health care organization, and this program allows me the freedom to work and study. My goal is to develop into a dynamic and innovative executive leader of a major health care organization. Florida Southern has what I need to make this goal a success.”

*CATERIA DAVIS MSN, RN, CNOR,  
CURRENT DNP STUDENT*

”

“

Our DNP program provides the flexibility and engaged academic experiences our community has come to expect from Florida Southern. The collaborative and supportive relationship that exists between our DNP faculty and students is what sets us apart. As a Florida Southern DNP prepared nurse, graduates are uniquely positioned for employment opportunities in all facets of health care from the bedside to the boardroom.

*MELANIE MICHAEL, DNP, FNP-C, CPHQ, FNAP  
ASSOCIATE PROFESSOR  
DIRECTOR, GRADUATE NURSING PROGRAMS*

”

“

Our Post-Baccalaureate Certificate in Nursing Administrative Leadership provides current and aspiring nurse managers and clinical leaders the knowledge and skills necessary to lead successful healthcare teams in a variety of settings. Through rigorous academics and engaged learning opportunities, our graduates are prepared to navigate and make a significant impact in the constantly changing healthcare environment.

*JEANNE JENKINS, Ph.D., MSN, MBA, RN  
ASSISTANT PROFESSOR OF NURSING  
MSN PROGRAM DIRECTOR*

”

# CERTIFICATES

---

At no time in history has there been more of a demand for professionals to possess additional knowledge and credentials in the rapidly changing world of healthcare.

---

## Post-Baccalaureate Certificate

### Program Overview

Our Post-Baccalaureate Certificate in Nursing Administrative Leadership allows nurses who desire additional credentials to build upon the foundation of their BSN degree. Designed for current and aspiring nurse managers and clinical leaders, this program will prepare students who wish to grow in their role and increase their knowledge in a variety of healthcare settings.

### Delivery

In this certificate program, students will complete the required courses fully online.

### Program Strengths

The courses will prepare the student to work in the fields of nursing leadership or be qualified for a promotion in their current workplace. The certificate can be completed in only 2 semesters (15 credit hours). Courses completed for the certificate are viewed as non-degree credits. Should a student decide to pursue the full Master of Science in Nursing in this track, credit from the certificate program will apply towards the MSN degree. Courses must be successfully completed with a minimum grade of B in the certificate program and would accelerate completion allowing students to earn their degree in as few as three semesters plus the clinical hour requirement.

**For the most updated curriculum, tuition cost and admission requirements, please visit**

**[www.flsouthern.edu/postbacc](http://www.flsouthern.edu/postbacc)**

## Post-Master's Certificate

### Program Overview & Design

Our Post-Master's Certificate program allows you to build upon the foundation of your MSN degree. These programs are designed to meet the needs of Master's prepared nurses seeking to expand their career opportunities to address areas of vital need in healthcare. The nurse educator certificate enables you to combine your professional expertise with a passion for teaching.

The nurse practitioner certificate programs provide two pathways depending on current licensure and certification status:

1. Master's-prepared nurse practitioners who are already certified and licensed can complete the program and become eligible for certification in a second population focused area of practice.
2. Master's-prepared nurses who have earned an MSN generalist degree or an MSN degree in another area of practice specialization can complete the requirements for initial certification as a nurse practitioner.

### Post-Master's Certificate Tracks

- **Adult-Gerontology Primary Care Nurse Practitioner**
- **Family Nurse Practitioner**
- **Nurse Educator**

### Delivery

Our nurse practitioner students meet once per week on campus for their classroom courses and our Nurse Educator program is fully online.
